

Amendments to the Claims:

This listing of claims replaces all prior versions and listings of claims in the application:

Listing of Claims

1. (Currently amended): A covered ~~sealed~~ package comprising  
a formed plastic container defining a storage region and having a ~~sealing~~ surface  
defining a rim around an entrance to said region, said container having a bottom wall and  
at least two opposed side walls each of which has retaining structure integrally formed  
thereon and protruding inward therefrom, said retaining structure being movable to move  
outward to permit entry of a cartridge into said storage region and to thereafter move  
inward to retain said cartridge in said region,  
a shaving cartridge contained within said storage region and retained by said  
retaining structure, said cartridge including a plastic housing and a plurality of blades,  
and  
a removable cover film that is ~~sealed to said sealing surface~~ seated in contacting  
relation to said rim and covers said entrance.

Claims 2-78 (cancelled)

79. (New): The package of claim 1 wherein said container has a ramp structure leading to  
said cartridge in said region.
80. (New): The package of claim 1 wherein said blades of said cartridge face away from  
said entrance.

81. (New): The package of claim 1 wherein said container has a plurality of protruding finger gripping ridges on one or more exterior surfaces.
82. (New): The package of claim 1 wherein said container has a plurality of protruding finger gripping ridges on one or more exterior surfaces, said ridges having an indented profile to accommodate a user's fingers.
83. (New): The package of claim 1 wherein said side walls are substantially stiff walls.
84. (New): The package of claim 1 wherein said cover is a film.
85. (New): The package of claim 1 wherein said cover is sealed to said container.
86. (New): The package of claim 1 wherein said container is transparent.
87. (New): The package of claim 1 or 86 wherein said cover has a surface carrying printing.
88. (New): The package of claim 1 wherein said shaving cartridge is a solitary shaving cartridge contained within said container.
89. (New): A covered package comprising  
a formed plastic container defining a storage region defined by a bottom wall and side walls having side surfaces, and having a surface defining a rim around an entrance to said region,  
a stored unit in said storage region, said unit being removable as an entire unit and comprising a shaving cartridge, retaining structure formed on the inside of said container and extending inward from said side surfaces, said retaining structure retaining said stored unit in a desired position in said container, said retaining structure being movable to move outward to

permit entry of said stored unit into said storage region and to thereafter move inward to retain said stored unit in said region, and

a removable cover that is seated in contacting relation to said rim and covers said entrance.

90. (New): The package of claim 1 or 89 further comprising a plastic tab attached to a portion of said cover extending beyond said rim for initiating removal of said cover from said rim.

91. (New): The package of claim 1 or 89 wherein said retaining structure has an inclined surface with respect to a said side wall facing said entrance.

92. (New): The package of claim 1 or 89 wherein said retaining structure has an inclined surface with respect to a said side wall facing said bottom wall.

93. (New): The package of claim 1 or 89 wherein said plastic container is made of a polyolefin.

94. (New): The package of claim 1 or 84 wherein said cover is secured to said container with an initial removal force greater than 1.5 Newtons.

95. (New): The package of claim 1 or 84 wherein said cover is secured to said container with an initial removal force greater than 3.0 to 5.0 Newtons.

96. (New): The package of claim 89 wherein said cover is a film.

97. (New): The package of claim 89 wherein said cover is sealed to said container.

98. (New): A covered package comprising

a formed plastic container defining a storage region and having a surface defining a rim around an entrance to said region, said container having a bottom wall and at least two opposed side walls each of which has retaining structure protruding inward therefrom,

a shaving cartridge contained within said storage region and retained by said retaining structure, said cartridge including a plastic housing and a plurality of blades, and a removable cover that is seated in contacting relation to said rim and covers said entrance,

wherein said container has a support member on said bottom wall supporting said cartridge in a desired orientation, said retaining structure being located on a said side wall of said container at an elevation higher than said support member.

99. (New): The package of claim 98 wherein said bottom wall is flat, and there are a plurality of said support members on said bottom wall supporting said cartridge in a desired orientation.

100. (New): The package of claim 98 wherein said cover is a film.

101. (New): The package of claim 98 wherein said cover is sealed to said container.

102. (New): A covered package comprising

a formed plastic container defining a storage region and having a surface defining a rim around an entrance to said region, said container having a bottom wall and at least two opposed side walls each of which has retaining structure integrally formed thereon and protruding inward therefrom, said side walls being deformable to permit entry and exit of a cartridge,

a shaving cartridge contained within said storage region and retained by said retaining structure, said cartridge including a plastic housing and a plurality of blades, and

a removable cover that is seated in contacting relation to said rim and covers said

entrance.

103. (New): The package of claim 102 wherein said cover is a film.

104. (New): The package of claim 102 wherein said cover is sealed to said container.

105. (New): A covered package comprising  
a formed plastic container defining a storage region defined by a bottom wall and side walls having side surfaces, and having a surface defining a rim around an entrance to said region,  
a stored unit in said storage region, said unit being removable as an entire unit and comprising a shaving cartridge, retaining structure formed on the inside of said container and extending inward from said side surfaces, said retaining structure retaining said stored unit in a desired position in said container, said side walls being deformable to permit entry and exit of said stored unit, and  
a removable cover that is seated in contacting relation to said rim and covers said entrance.

106. (New): The package of claim 105 wherein said cover is a film.

107. (New): The package of claim 105 wherein said cover is sealed to said container.

108. (New): A covered package comprising  
a formed plastic container defining a storage region and having a surface defining a rim around an entrance to said region, said container having a bottom wall and at least two opposed side walls each of which has retaining structure integrally formed thereon and protruding inward therefrom, said retaining structure snappingly engaging said cartridge,  
a shaving cartridge contained within said storage region and retained by said retaining structure, said cartridge including a plastic housing and a plurality of blades, and

a removable cover that is seated in contacting relation to said rim and covers said entrance.

109. (New): The package of claim 108 wherein said cover is a film.

110. (New): The package of claim 108 wherein said cover is sealed to said container.

111. (New) A covered package comprising

a formed plastic container defining a storage region defined by a bottom wall and side walls having side surfaces, and having a surface defining a rim around an entrance to said region,

a stored unit in said storage region, said unit being removable as an entire unit and comprising a shaving cartridge,

retaining structure formed on the inside of said container and extending inward from said side surfaces, said retaining structure retaining said stored unit in a desired position in said container, said retaining structure snappingly engaging said stored unit, and

a removable cover that is seated in contacting relation to said rim and covers said entrance.

112. (New): The package of claim 111 wherein said cover is a film.

113. (New): The package of claim 111 wherein said cover is sealed to said container
